Key Partners

- Technology Providers
- Hardware Suppliers
- Distribution and Retail Partners
- Non-Profit Organizations and NGOs
- Research Institutions and Universities

Key Activities

- Community management
- Software/Infrastructure Maintenance
- Customer support

Key Resources

- Speech-to-Text AI
- Skilled developers
- Designers
- Language Database
- Customer support

Value Propositions

We offer a solution for hearing-disabled people and travellers to make themselves understood. We propose a freemium subscribtion to get rid of ads, but the app is entirely free and accessible to anyone.

Customer Relationships

- Supportive Services
- Community Engagement
- Proactive Communication

Channels

- App Stores
- Website
- Social Media
- Partnerships

Customer Segments

- hearing impaired and deaf people
- Jobs that require contact with foreigners such as waiters and nurses
- travelers

Cost Structure

Our primary loss of money will be the ad and community management department. Some will also be lost with the different fees to host the app on multiple platforms.
(Ex: 99$/year to host it on the apple store)

Revenue Streams

- Freemium Model
- Ads (non-intrusive)
- Donations/Grants
